

in two individual championship classes (warm up classes and pairs not included). Competitors who qualify the same horse in three championship classes will be required to choose which championship classes they will contest at the Championship. This must be declared to the Official Steward at the qualifier.

G6.4: Mares in Foal

Mares in foal may not compete after their fourth month of pregnancy or with a foal at foot.

G7: EQUINE INFLUENZA

G7.1: Vaccinations against Equine Influenza

This rule applies in respect of any horse or pony which competes in a BRC Area Qualifier and Championship.

The horse or pony must have been vaccinated against equine influenza by a veterinary surgeon who is not the owner of the animal, in accordance with the following rules:

The horse or pony must have received a primary injection followed by:

- a second primary injection which is given not less than 21 days and not more than 92 days after the first
- a first booster injection which is given not less than 150 days and not more than 215 days after the second primary injection
- further annual booster injections at intervals of not more than a year apart.

If the current vaccination programme started AFTER 1 January **2013**:

- the first two primary injections must be correct i.e. the second given between 21 and 92 days after the first
- the first booster must be given between 150 and 215 days after the second primary injection
- all annual boosters must be correct.

However, any errors with first booster (which should be given 150 – 215 days after the second primary injection) or annual booster given BEFORE 1 January **2013** may be ignored provided that:

- the first two primary injections are correct i.e. the second given between 21 and 92 days after the first
- all annual boosters given AFTER 1 January **2013** are correct.

Leap years will be ignored for an annual booster, but for the two primary injections and first booster injection, the days must be counted and therefore a leap year would interfere with the correct number of days between injections.

Horses may compete at BRC Competitions providing that they have had the first two primary injections. No injection should have been given on any of the 6 days before a competition or entry to championship stables.

In the event of failure to comply with any of the requirements of this rule, the horse or pony will be disqualified and not permitted to take part in any competition to which these rules apply.

G7.2 Checking of Passports and Equine Influenza Records

Horses must be presented in a bridle to the flu vac checker at Championships and where applicable Area Qualifiers. For the purposes of determining whether the requirements of

these rules have been met, the following documents must be available for inspection in respect of a horse or pony which is taking part in a BRC Area Qualifier or Championship.

- any passport issued for the horse and
- the full vaccination records for the horse if this is not contained in the passport

The identification of the horse or pony must be checked against that contained in the passport or on the flu vaccination record. This may be done from the diagram and description of the animal or by microchip providing that the microchip number has been recorded in the passport or flu vaccination record.

The vaccination section of the horse's passport must have been completed by a Veterinary Surgeon who is not the owner of the horse or pony.

The dates on which the vaccinations were given must comply with the requirements as stated in G7.1.

Any alterations to any entries on the vaccination record must have been made, signed and stamped by a veterinary surgeon.

G7.3 Disqualification

Any horse or pony failing the requirements described in these rules will not be permitted to compete.

Any pony/horse that is in a team competition and has been disqualified at an Area Qualifier will be reported to the BRC Office and cannot be replaced with a reserve; the team will have to continue as a team of three, or if already a team of three, will have to compete as individuals only, if there is an individual competition.

No refund of entries or stable fees will be awarded for any disqualified horse/pony.

Every effort will be made to ensure that the checking at area qualifiers is carried out correctly. BRC accepts no responsibility whatsoever for any losses suffered, whether directly or indirectly, due to incorrect checking at any BRC Area Qualifier or Championships. It is the sole responsibility of the competitor to ensure that their certificate is valid and it should not be assumed that because a certificate has been accepted at one competition in good faith it would be accepted at another competition.

G7.4: Flu Vaccination Checklist

A copy of the flu vaccination checklist is in CR Appendix 13 and should be used as follows:

- take the date of the first injection and look this up in the column headed INJECTION DATE
- compare the dates in 21 DAYS and 92 DAYS columns with the date in the flu vac record for second injection, if the date is within range it is fine, if not it is an invalid record
- take the date of the second injection and look this up in the column headed INJECTION DATE again
- compare the dates in 150 DAYS and 215 DAYS columns with the date in the flu vac record for third injection (first booster), if the date is within range it is fine, if not it is an invalid record (unless the two primary injections were before 1 January **2013**)
- leap years are not recorded in the checklist, so you may need to adjust the date to take the extra day into account.
